

Loren L. Arp P.T.
Co-Founder

Background: Augustana College – Rock Island, Illinois.
BA in Physical Education – 1971

University of Iowa- Iowa City, Iowa.
Certificate in Physical Therapy – 1974

Loren was a physical therapist for 36+ years and as a clinician held many regional and national positions pertaining to rehabilitation techniques and human performance testing. He lectured nationally on isokinetic human performance testing and was recognized as an authority on testing outcomes.

In the time between 1990 and 2010 - Loren expanded the science of isokinetics through clinical study and research into isokinetic strength-duration curves as it related to diagnostic conditions.

Loren remained as President of CRT through 2010 when he passed away due to an accident. Loren was a major contributor in creating, implementing and getting CRT to where we are today.
